Kranti Industries Limited enters a Strategic Collaboration with Universal Autofoundry Limited to strengthen integrated manufacturing capabilities

27rd October 2025, Pune: Kranti Industries Limited (BSE: 542459), a leading precision engineering and machining solutions firm, has signed a Memorandum of Understanding (MoU) with Universal Autofoundry Limited (BSE: 539314), a prominent Jaipur-based castings manufacturer, to form a long-term machining alliance in Rajasthan.

This alliance represents a significant milestone for both companies, combining UFL's expertise in foundry operations with Kranti's high-precision machining capabilities to create an integrated, efficient, and scalable manufacturing ecosystem for the automotive and engineering sectors.

Strategic Overview:

- **Premises Lease & Workshops Consolidation:**
 - Under this MoU, UFL will lease Kranti its machining premises located at Sargoth, Dist. Sikar, Rajasthan, along with the associated plant & machinery.
 - UFL currently operates two separate machine shops at different locations in Rajasthan. Through this arrangement, both operations will be merged at UFL's Unit 3 plant in Sargoth, which will serve as the central machining hub.
- **Exclusive Operations:** Kranti will operate and manage the consolidated machine-shop facility exclusively for machining casting components manufactured by UFL, ensuring seamless integration between foundry and machining operations.
- **Operational Objective:** The collaboration aims to leverage UFL's foundry capabilities and Kranti's precision-machining expertise to enhance productivity, quality, and operational efficiency, thereby creating sustainable long-term value for both organizations.
- **Duration & Tenure:** The partnership will commence on 1st January 2026 and continue for seven years, including a three-year lock-in period.

Significance and Business Impact:

- **Geographical Diversification:**
 - It marks Kranti's entry into Northern India, extending its footprint beyond Western India and establishing a more balanced presence nationwide.
 - This expansion enhances customer access, streamlines logistics, and reduces regional market risks.
- **Integrated Manufacturing Value Chain:** Enhances UFL's capability from casting to machining under a unified operational ecosystem.
- **Operational Excellence:** Enables both partners to drive process optimization, quality improvement, and faster delivery cycles.
- **Cost Efficiency & Scale:** Unlocks economies of scale through shared infrastructure, improved utilization, and streamlined supply chain coordination.
- **Make in India Alignment:** Supports India's vision for localized, competitive, and technology-driven manufacturing within the automotive and engineering sectors.

Commenting on this strategic collaboration, Mr. Sachin Subhash Vora, Chairman & Managing Director, said,

"This collaboration with Universal Autofoundry Limited marks a major step in Kranti's growth and strategic roadmap. It will strengthen our presence in Northern India while complementing our machining capabilities in the West. By combining UFL's foundry expertise with our precision machining, we are aiming to create an integrated platform that enhances quality, efficiency, and customer service.

The partnership supports OEMs and Tier-1 suppliers and drives long-term shareholder value, aligning with our Vision 2030 to become a globally recognized solutions provider."

Mr. Vimal Chand Jain, Managing Director, Universal Autofoundry Limited, added,

"We are pleased to partner with Kranti Industries, a leader in machining innovation. This collaboration will streamline operations, enhance quality, consistency, and delivery. By integrating UFL's casting capabilities with Kranti's machining expertise, we will build a coordinated manufacturing ecosystem that supports scalable growth, strengthens competitiveness, fosters innovation, and optimizes resources, enabling superior value for customers and long-term operational excellence."

About Universal Autofoundry Limited (BSE: 539314):

Incorporated in 2009 and based in Jaipur, Rajasthan, Universal Autofoundry Limited manufactures high-quality SG and CI castings catering to automotive and industrial applications. With advanced foundry facilities and a focus on quality and efficiency, UFL supplies to leading OEMs and Tier-1 manufacturers across India. For more information, kindly visit www.uflindia.com

About Kranti Industries Limited (BSE: 542459):

Kranti Industries Limited (KIL), established in 1981 and based in Pune, is a BSE-listed company specializing in precision component manufacturing for automotive, agricultural, construction equipment, and electric vehicle segments. With over four decades of engineering expertise, KIL serves leading OEMs and Tier-1 suppliers across India and international markets.

The company holds IATF 16949:2016 and ISO 9001:2015 certifications and operates three state-of-the-art manufacturing units in Pune, equipped with 80 production machines, including multi-axis machining centres, CNC turning, vertical turret lathes, horizontal and vertical machining centres, alongside comprehensive inspection setups. Guided by Vision 2030, KIL focuses on manufacturing excellence, sustainability, innovation, diversification, and customer delight through advanced technology.
